INDEX -- 1985 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Coruier during the year 1985. The data is contained on 3"x4" inde--cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

NAME OF DECASED	DATE BORN	OBIT DATE	NAME OF SPOUSE(S)	FATHER/MOTHER SURNAME

INDEX -- 1986 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1986. The data is contained on 3"x4" index-cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1987 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1987. The data is contained on 3"x4" index-cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1988 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1988. The data is contained on 3"x5" index-cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1989 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the *Jacksonville Journal Courier* during the year 1989. The data is contained on 3"x5" index-cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1990 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1990. The data is contained on 3"x5" index-cards which are on file with the JACKSONVILLE AREA GENEALOGICAL AND HISTORICAL SOCIETY, Jacksonville, Morgan County, Illinois. The cards contain such data as: name of deceased; date and place of birth; date and place of death; place of burial; name of spouse; date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1991 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1991. The data is contained on 3"x5" index-cards containing such information as: name of deceased; date and place of birth and death; place of burial; name of spouse(s); date and place of marriage; name of parents; veteran status; surviving family members; predeceased family information; and other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1992 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1992. The data is contained on 3"x5" index-cards containing such information as: name of deceased; date and place of birth and death; place of burial; name of spouse(s); date and place of marriage; names of parents; veteran status; surviving family members; pre-deceased family information; and other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX

1993 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the **Jacksonville Journal Courier** during the year 1993. The data has been entered on 3"x5" index-cards containing such information as: name of deceased, date and place of marriage, names of parents, veteran status, surviving family members, pre-deceased family information and other genealogical data which may have been included within the obits.

Following this coversheet is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, is reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1994 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1994. The data is contained on 3"x5" index-cards containing such information as: name of deceased; date and place of birth and death; place of burial; name of spouse(s); date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; and other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where these is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.

INDEX -- 1995 Deaths in the Morgan County, Illinois Area

Genealogical data has been extracted from obituaries appearing in the Jacksonville Journal Courier during the year 1995. The data is contained on 3"x5" index-cards containing such information as: name of deceased; date and place of birth and death; place of burial; name of spouse(s); date and place of marriage; names of parents; veteran status; surviving family members; predeceased family information; and other genealogical information which may have been included with the obits.

Following is an index of these cards. The surname of the spouse is not included for a woman's husband in order to conserve space and printing. Where there is no spouse listed, it has been assumed from the obit that the individual was not married. In the event of more than one marriage, each spouse, when known, will be reflected. Data not published within the newspaper obit will be indicated by use of the underscore. * indicates service veteran.
